

# NEW ARRIVAL!

## BR230-19E00

### Vacuum Blending

Removes most of oxygen inside the blender by vacuum sealing the blending jar, nutrients, colors and flavor are preserved, resulting in a smoother, more flavorful, longer lasting and healthier concoction.

### Noise Reduction Cover

The cover significantly minimizes the noise generated by a typical high-speed blender.

### Auto-blending Function

The blender will start on its own when removing-oxygen is finished.

Voltage: 100-240V, 50-60Hz  
Power: 800W  
Speed: 17000 RPM (Without loading)  
14000 RPM (with loading)  
Vacuum degree: 80Kpa  
Product size: 20x23x42.5CM  
Product weight: 3.8kgs  
Blade: Stainless steel cross blade  
Capacity: 1.0L blender jar  
Material: BPA free material  
Vacuum pump time: 25 seconds Max.  
Noise: < 70dB

# PERSONAL VACUUM BLENDER

## BR230-20E00

With this SAVTM vacuum blender, you can mix and chop ingredients just as you do with a regular blender. Then the blender can start the vacuum process, minimizing contact with oxygen, maintains the original taste and flavor and provides fresher juice by automatic operation or hand pump.

Voltage: 100-240V, 50-60Hz  
Motor: AC  
Power: 500W  
Speed: 23000RPM  
Product size: 14X14X41.5CM  
Product weight: 1.7KGS  
Capacity: 0.65L  
Vacuum time: 30 seconds Max

- a. Auto vacuum blending
- b. Double locking
- c. USB interface
- using lithium battery to charging

Lifting handle is easy for carry out no matter where you are!  
BPA Free material for bottle

Stainless steel blade and removable knife holder.

This blender is operated by rotating the ring (black place); The figures mean the operation time can be chosen and the Max time is 3 minutes.

- 1. Cooling air outlet to protect motor and service life of the motor;
- 2. Four non-slip mats

Mason cup can also work as mixing cup using the detachable knife holder

### Another Configuration :

The cup of this configuration can be vacuum to keep fresh for a long time only by using a hand pump.
